What is Wapice?

Wapice Ltd is a leading technology partner for industrial businesses. We help our customers transform into digital champions for creating a better future. The broadness of our technology stack is unique in Finland.

We do tailored software projects and our competence ranges from electronics design over embedded software up to mobile and cloud based software solutions. Currently our own product portfolio consists of three cloud based products: IoT-TICKET®, SUMMIUM® and EcoReaction.

**Complete technology expertise
in creating digitalized solutions**

Web and mobile technologies
Cross platform applications
Test systems and services

dev ops

Mobile

React Native, Flutter, Xamarin, Ionic, Cordova, Native Android/iOS, PWA

Web

HTML/JavaScript, CSS, SCSS, React, Angular, Vue.js, NodeJS, TypeScript, ES6, ES7, ThreeJS

Microsoft .NET

C#, .NET Core, ASP.NET Core, EF Core, .NET Standard

Qt/QML, Modern C++

Java

Spring Framework, Standard Java, Quarkus

Our business is growing and we are constantly looking for passionate Software Designers to join us!

What Are We Looking For?

Cloud

IoT, Containers, Microservices, Cloud Platforms, Azure, AWS, IaC, Serverless, Kubernetes, Security, Data Management

Data Analytics and Machine Vision

ML/AI techniques, Statistics/Mathematics, Python, Tensorflow, PyTorch, OpenCV, scikit-learn, Dask, Databases, ETL, Data pipelining

DevOps

Robot framework, Docker, Atlassian stack, Azure DevOps, Gitlab

UX/UI and Service Design

Embedded Systems

RTOS, C, C++, realtime, ARM, PowerPC

Linux

Kernel, systems programming, yocto, buildroot, realtime, xenomai, virtualization, docker, multicore

Protocol and network engineering

OPC-UA, TSN, MQTT, Fieldbuses, Parallel Redundancy Protocols, Wireless Protocols

Electronics

Pads, Atex, Industrial electronics, Schema, layout, simulations, power, wireless

**"Combining work
and studies at Wapice
was a breeze."**

**"I am pleased that I've
been able to work with
experienced experts, whose
know-how I have been able
to take advantage of when
developing my skills."**

Why to Wapice?

"My work in Wapice is very versatile. The best thing about this job is to see the result of my work running in the customer's production environment."

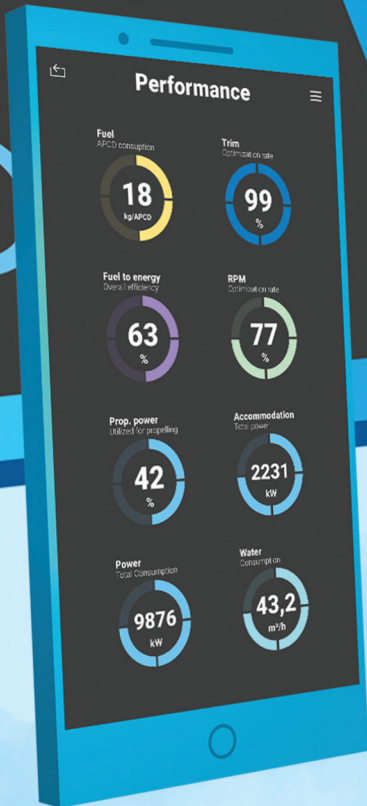

"Thanks to Wapice I've had the chance to get familiar with many different technologies and work together with amazing people."

"Work at Wapice is interesting; problem solving, new development, sometimes lonesome struggle, sometimes teamwork with colleagues."

We have developed our service to be more intelligent by adding analytics and machine vision solutions to the service concept. With the help of IoT-TICKET®, even new technologies can be introduced at almost routine pace, and the development and maintenance of the service level has been smooth. The focus is on increasing customer value rather than on software.

Tuomo Härkönen,
Director of Digitalization,
Caverion

IoT-TICKET® is the Internet of Things office suite. It is a complete IoT platform covering data acquisition, reporting, dashboard and analytics.

Wapice Projects

Summum® CPQ is a browser-based sales tool for configuring, pricing and quoting products, services and entire projects.

Summum® CPQ is Wapice's own product.

Key technologies used: Java, SpringBoot, Hibernate, Vaadin.

Visualisation facilitates sales as the tool creates clear images of the desired product and collects project-related information and technical documents to be attached to the quotation.

Markus Kekolahti,
Sales Manager,
Alfen Elkamo

Digitalisation of sales provides cost efficiency for the entire business. When the sales system interacts with the ERP system, the benefits are reflected throughout the production process.

Johan Österholm,
System Developer,
Ekeri

WAPICE ENERGY SERVICES offer a complete turnkey solution for energy companies and their customers. Intelligent and comprehensive energy services can be used to cover the customer's needs for managing contracts and invoices and monitoring energy consumption and production.

A young man with short hair and glasses is smiling and juggling three balls. He is wearing a plaid shirt over a t-shirt that features a stylized graphic of a man with a beard and a crown. The background is a blurred indoor setting with blue lighting. A yellow text box is overlaid on the image.

**We want to hear from you!
Tell us what you've done and
what's your passion!**

Join Our Team!

Requirements:

You can be an experienced expert, recently graduated or about to finish your studies. The job description is adjusted based on your experience.

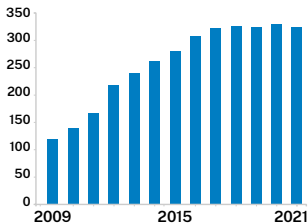

Choose Your Office:

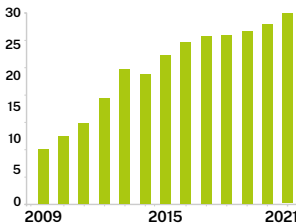

VAASA (HQ). HELSINKI. HYVINKÄÄ. JYVÄSKYLÄ.
OULU. SEINÄJOKI. TAMPERE. TURKU.
